

once there was
nothing just a void of
darkness.

but among the darkness
lay an egg.

soon the egg started
to hatch...

and bore the phoenix
form of RA

Ra was the sun
god and first the
deity.

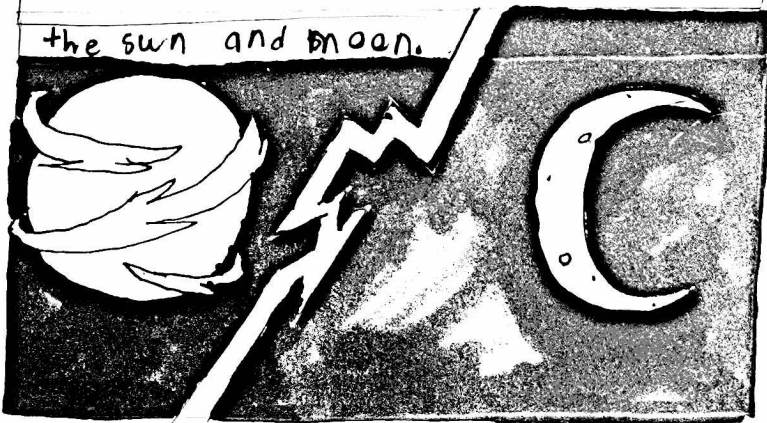

he created everything

the earth

the sun and moon.

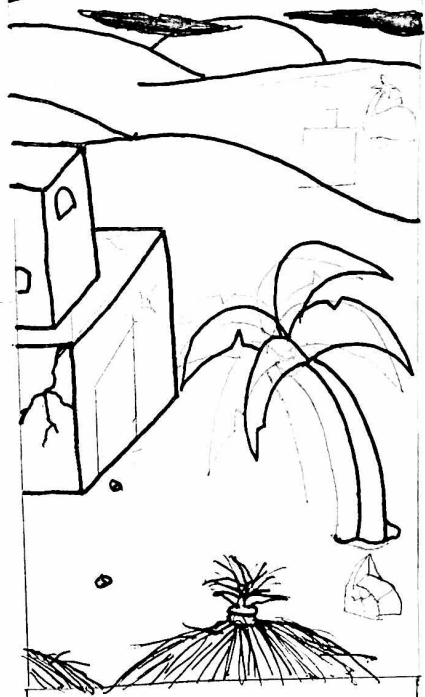

He created man...

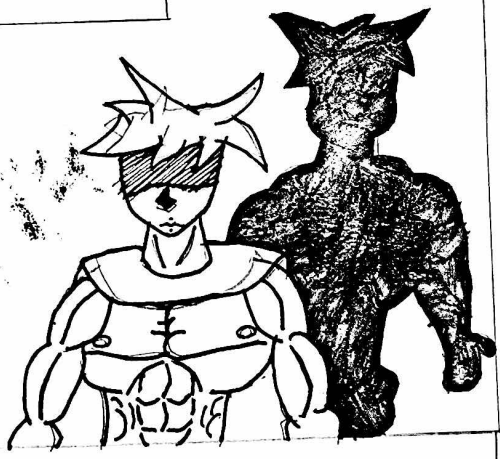

and beast

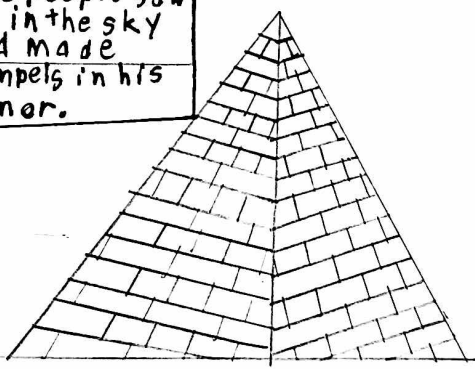

the first cities were created.

Ra created other gods and goddesses.

the people saw Ra in the sky and made tempels in his honor.

and together the gods ruled egypt forever.
